MA Motion

Android upload keystore record

Created 10 November 2026. Passwords are not written in this PDF.

Application

Android application id: com.mamotion.ma_motion_mobile
Namespace: com.mamotion.ma_motion_mobile
iOS bundle id, recorded separately: com.mamotion.maMotionMobile
Version at creation: 1.0.0+1

Keystore

File: android/upload-keystore.jks
Store type: JKS
Alias: upload
Key algorithm: RSA 2048, signature SHA384withRSA
Validity: 10000 days
Subject: CN=MA Motion Mobile, OU=Android, O=MA Motion, C=US
Serial: 79b06a5701d718e
Valid from: Tue Nov 10 10:51:58 PKT 2026 until: Sat Mar 28 10:51:58 PKT 2054
Store password and key password: same value, only in android/key.properties

Certificate fingerprints

SHA-1: 3E:2E:E2:FB:33:86:3D:A8:58:F4:0A:5B:27:6E:CC:6E:00:7D:B6:2B

SHA-256: 99:39:85:9A:16:59:70:8A:70:62:CF:6B:A3:89:EF:28:29:1E:18:8A:E0:40:7E:83:4D:04:9F:6E:B1:9E:D3:34

Gradle

android/app/build.gradle.kts reads android/key.properties for release builds.
storeFile=../upload-keystore.jks, resolved from the app module.
Release uses signingConfigs.release. Debug builds stay on the debug key.

Backup

Back up upload-keystore.jks and key.properties together, outside git.
Both files are gitignored. Losing them blocks later updates with this upload key.
